

# Knowledge in Motion

## SCI Lecture & Webcast Series

**Save the Date!**

**Thursday, April 20, 2017**

6:30 PM - 8:00 PM

## The Future is Here: What Can Robotics Do for Individuals with Spinal Cord Injury?

**Paolo Bonato, PhD**

Director, Motion Analysis Laboratory  
Spaulding Rehabilitation Hospital, Harvard Medical School

This presentation will discuss how robotic systems and assistive devices with robotic capabilities are currently used to regain and retrain motor function and improve independence for individuals living with SCI.

### Webcast attendees will be able to:

- Compare the most prominent robotic systems designed to retrain motor functions.
- Compare assistive devices with robotic capabilities.
- Discuss the integration of robotic technology and other technologies to improve independence.
- Understand a consumer's perspective based on personal experience using robotics.

To register for dinner & lecture  
at Spaulding in Charlestown, MA:

[www.sh-sci.org](http://www.sh-sci.org)

or contact Jenny Min
