WEBINAR: DEC. 1, 2025 | 3PM EST

Fertility & Catheterizations After Spinal Cord Injury

Navigating Options and Outcomes

[Register Now](#)

Join us for an engaging webinar to explore the physical, emotional, and technological factors impacting fertility after spinal cord injury (SCI). Discover key information on urinary and reproductive outcomes, learn about groundbreaking research on the potential role of PVP in fertility, and hear firsthand experiences from an SCI intermittent catheter user about their fertility journey and catheter use.

When: Monday | Dec. 1st
Time: 3:00pm (EST)
